

Centro de Interpretación Racó de l'Olla (Valencia, Spain)

The objective of the *World Fish Migration Day* was to create awareness on the importance of open rivers and migratory fish. The first edition took place in May 2014 and a total of 270 events were organized all over the world, but in its second edition this amount went up to 450 events, having involved 15 million people on social media.

Around 240 people visited the Centro de Interpretación throughout that morning and enjoyed the activities that had been organized. First, they had the chance of listening informative talks given by Dr. Juan F. Asturiano, who introduced to the audience the *World Fish Migration Day* and their objectives, the European eel and their problems to be cultured, how our group is trying to help with experiments
